TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backachy or have Bladder trouble.

heir efforts to filter it from the contains the filter it from the training Regular eaters of meat must with the kidneys occasionally. You may have them like you relieve them like you fell a dult nleery 12 the kidney region, charp hims in the back or sick headachate insiness your stomach sours, tongue a caimed and when the weather is bad you have rhoumatic twinges. The urine is cloudy full of sediment; he channels often get irritated, biging you to get up two or three lims alterns the body's urinous caste get about four ounces of Jad liais from any pharmacy take a ableagonsful in a glass of water bears are breakfast for a few days and liadder disorders disappear. This kinus saits to made from the acid of grapes and lemon luice, combined with libria, and has been used for senerations to clean and stimulated sites of the standard librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for first allow. The librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for first allow librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for senerations to clean and stimulated with librial and has been used for the freeze of the gland

PEOPLE

Will Present "L'Oracola" and Last Man Will Leave France During August Secretary Baker Says

> WASHINGTON May 7 - Secre-tary Baker announced today that by August the last man of the by August the last man of the American expeditionary forces will have been withdrawn from France. He said this estimate was bosed on the movement of 200,000 men a month to the United States.
>
> Already, Mr. Baker said, the American forces in France have been diverced from the army of occupation. Plans have been completed to supply the force in Germany through the ports of Anterpand Rotterdam, removing the necessity for maintaining the 100-mile line of communication from Brest, The Franch ports will be maintained by waver, for the withdrawal of the A. E. F.
>
> More than half of the expeditionary force has now left france. Mr. Baker said, and as the withdrawal progresses facilities will be read for those forces are being friend Tack either to otivate owners or to the municipalities to any the than the progresses.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

titav hair, however handsome, de-

nitrar hair, however bandsome denotes advanting age. We all know
the advantages of a youthful appearance. Your hair is your charm,
it makes or mars the face. When it
fades furns grav and looks streaked,
just a few applications of Sage Tea
and Sulphur enhances its appearance
a hundred-fall.

Lion't stay gray Look young!
Either prepare the recipe at home or
get from any drug store a bottle of
Wreth's Sage and Sulphur Compound, which is merely the oldtime recipe improved by the addition
of other ingreddents. Thousands of
folks recommend this ready-to-use
preparation, because it darkens the
hair beautifully besides no one can
possibly tell, as it darkens so naturally and evenly. You moisien a possibly tell, as it darkens so naturally and evenly. You moisien a spronge or soft brush with it, drawfing this through the hair, taking one small strand at a time. By morning the gray hair disappears, after another application or two, its natural color is restored and it becomes thick, glossy and lustrous and you appear years younger.—Adv.

Packard First Cost and Final Economy

TO MASS URGES OKLAHOMA

TO RAISE HER FULL QUOTA

TO RAISE HER FULL QUOT Judged by the number of years you will use the Packard, as against the life of another car-a Packard costs less than an ordinary automobile. The total cost includes not only the original cost, but supplies, repairs and upkeep-against which you can credit the assured high used-value of a Packard Car.

INE automobiles were long made and sold as luxuries.

Some men cannot yet grasp the idea of economy and sheer utility-value beyond a certain fixed first cost.

Their motoring ideals are limited. Their car imagination stops about half way.

These men have not kept pace with engineering development as represented by the Packard

Leaving aside the factors of elegance, beauty, speed, riding comfort, they would not understand how the Packard, for example, would be worth a two-fisted man's money, even if he took care of it himself and, let us say, drove it in his shirt sleeves.

On the highroad, or in city traffic, it is the easiest car in the world to handle; the best car for either man or woman to drive; the most responsive, accurate and safe.

The Packard has a much longer natural life than other cars.

It costs less to maintain than compromise-cars at one-half to two-thirds its price. It does not need the constant care of a mechanician.

Every part is accessible.

Adjustments are so simple, the whole mechanical lay-out so clean-cut, that any man or woman who has been about cars at all and knows enough to handle a wrench can keep it running sweet and strong as the day it was delivered.

The Packard does everything easily, without racking vibration, without effort, without strain. There is nothing inaccessible, awkward or amateurish about it.

It is a developed car; professional through and through. All the power you can use, but never

Any man could see the advantage of all this in relation, say, to the power equipment of his factory. Why should he think he can compromise successfully in his motor-car investment?

There is a new science of transportation—that of motor-vehicle performance, maintenance and cost. It has to do with your car and its duty, however limited its use.

The Packard people are transportation experts; they have more to tell you on this subject than any other organization in the world. You can ask them to discuss your car problem without obligation. It is to your interest and profit to do so.
